Subject:	sys-kernel/calculate-sources version bump required.		
Description:	Kernel 4.16.2 has been released, and sys-kernel/gentoo-sources is already on 4.16.2. AMD Ryzen 2200G/2400G support barely supported in 4.15.x, so please update the calculate-sources patchset. Thank you for all the hard work. Calculate Linux is the best distro, and your work has made it this way.
