Calculate Linux - Bug # 122: Cl-kernel need fix

Status:	Closed	Priority:	Normal
Author:	Danil Maksimov	Category:	Calculate Linux Desktop MATE
Created:	02/06/2010	Assignee:	Mikhail Hiretsky
Updated:	09/22/2011	Due date:	

Subject:	Cl-kernel need fix
Description:	Lets few in some steps what's happend.
	1. Going to recompile my kernel
	2. All go kk
	3. Going to fix my kernel, and here I cann' fix the previous config but I fixation from beginning point.
	And I am not sure, but I think cl-kernel don't use .config at all. Anyway I cann't see any information about what cl-kernel do, as for me it is very important, cuz not all 'universal' configurations wokr, it can be a reason to system hang up. http://en.gentoo-wiki.com/wiki/Dell_Studio_1555 this can help.

History
