

Calculate Linux - Bug # 149: Xchat cannot be set to transparent

Status:	Closed	Priority:	Normal
Author:	Ca1cu1ate 0	Category:	Calculate Linux Desktop Xfce
Created:	04/11/2010	Assignee:	
Updated:	10/06/2010	Due date:	
Subject:	Xchat cannot be set to transparent		
Description:	<p>I am using Calculate 10.4 and whenever I try to set Xchat to transparent it instantly quit without saving the changes I made.</p> <p>when I launch Xchat from the terminal I notice the following errors:</p> <p>(xchat:17299): Gtk-WARNING **: Unable to locate theme engine in module_path: "clearlooks",</p> <p>(xchat:17299): Gtk-WARNING **: Unable to locate theme engine in module_path: "clearlooks",</p> <p>(xchat:17299): Gtk-WARNING **: Unable to locate theme engine in module_path: "clearlooks",</p> <p>(xchat:17299): Gtk-WARNING **: Unable to locate theme engine in module_path: "crux-engine",</p> <p>** (xchat:17299): WARNING **: Invalid borders specified for theme pixmap:     /home/ca1cu1ate/.themes/Q.d@rkS7UD10/gtk-2.0/Scrollbar/scrollbar_vertical.png, borders don't fit within the image</p> <p>I'm assuming that there is a problem with the gtk theme that I am using.</p> <p>Now when i try to set Xchat to transparent background, and click ok, i get this error:</p> <p>The program 'xchat' received an X Window System error. This probably reflects a bug in the program. The error was 'BadImplementation (server does not implement operation)'. (Details: serial 23565 error_code 17 request_code 139 minor_code 5) (Note to programmers: normally, X errors are reported asynchronously; that is, you will receive the error a while after causing it. To debug your program, run it with the --sync command line option to change this behavior. You can then get a meaningful backtrace from your debugger if you break on the gdk_x_error() function.)</p>
