| <b>Subject:</b>     | cl-update : wrong message  |                  |                     |
| <b>Description:</b> | <p>Hi team calculate,</p> <p>At the end of the update with "cl-update" tool, it's possible to uninstall some packages.</p> <p>But, if we don't uninstall packages (answer "No") we have an message which is wrong : "Update failed"</p> <p>But, update is OK. I think you can correct with "No packages removed"</p> <p>I enclose the pastebin (in french) of the console output : <a href="http://pastebin.calculate-linux.ru/ru/show/9512">http://pastebin.calculate-linux.ru/ru/show/9512</a></p> |                  |                     |

If you don't uninstall packages and answer "No" this may cause some problems in future updates, some blocking... So we are thinking that the update system has not been completed.

#### 07/17/2014 05:11 pm - Adrien Duck

Okay Okay ..

#### 09/03/2014 07:25 pm - Alexander Tratsevskiy

- Status changed from New to Closed

#### 03/24/2015 06:48 pm - Jonny Talker

Still "Update failed"
