Calculate Linux - Bug # 659: cl-update : wrong message

Status:	Closed	**Priority:**	Normal
Author:	Adrien Duck	**Category:**	Calculate Utilities
Created:	07/16/2014	**Assignee:**	
Updated:	03/24/2015	**Due date:**	

Subject:	cl-update : wrong message
Description:	Hi team calculate,
	At the end of the update with "cl-update" tool, it's possible to uninstall some packages.
	But, if we don't uninstall packages (answer "No") we have am message which is wrong : "Update failed"
	But, update is OK. I think you can correct with "No packages removed"
	I enclose the pastebin (in french) of the console output : http://pastebin.calculate-linux.ru/ru/show/9512

If you don't uninstall packages and answer "No" this may cause some problems in future updates, some blocking... So we are thinking that the update system has not been completed.
