**Subject:** eix-sync

**Description:**

```

<pre>
CLDX ~ # eix-sync
* Running !-hooks
* Running /usr/sbin/cl-core --method update --sync --skip-eix-update
Repositories synchronization
* Syncing the Distro repository ...
    [ ok ]
* Syncing the Calculate repository ...
    [ ok ]
* Syncing the Portage repository ...
    [ ok ]
* Synchronization finished
System configuration
* Fixing the settings ...
    [ ok ]
* Updating the list of system packages ...
    [ ok ]
* Updating configuration files ...
    [ ok ]
* System update finished!
* Copying old database to /var/cache/eix/previous.eix
* Running eix-update

</pre>

```

**History**
