Subject:	Developement Version of GIMP		
Description:	Hi team Calculate,		

Description continued:

Hi team Calculate,

On all versions of Calculate, GIMP was updated the 24/12/2015 to the 2.9.2 version.

BUT, this version is developement version and not stable !
Source : http://www.gimp.org/news/2015/11/27/gimp-2-9-2-released/

Is it possible to downgrade to stable version (2.8.16) ?
