If we update with

```
<pre>cl-update</pre>
```

This line doesn't work :

```
<pre>cl_update_binhost_list = http://10.21.21.253/calculate,http://10.21.21.253/testing</pre>
```

Update server ftp://ftp.calculate-linux.org/testing

Solved by

<pre>

```
cl_update_binhost_unstable_list = http://10.21.21.253/testing
```

</pre>

Not a bug sorry :)

You can close
