Subject:	Add support for gadu-gadu protocol in pidgin binary		
Description:	*Hello everyone*		
	After I had installed pidgin, I was surprised that there were no support for gadu-gadu protocol. In other distro's, pidgin package's often has support for it, and gadu-gadu is still quite popular in poland so I think it would be good idea to add it to binary. For now I had to modify USE's and build it.
